## Single Origin

Easily extract specialty coffees and experience new levels of delicate flavors.

## Espresso Tea

Our pressure-free technology is perfect for brewing fragrant and delicious tea.

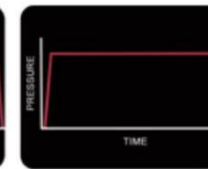

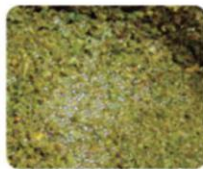

## Espresso Coffee

Our supercharged silent motor technology lets you quietly extract espresso in style.

● Dripping Shower accessory, easily brew the perfect cup of single-origin coffee

### Specifically designed to easily brew single-origin coffee

Attach the Dripping Shower accessory to the brewing head, and select multi-stage pre-soak and drip settings to simulate authentic pour over coffee.

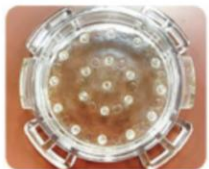

### Tea-Espresso

Tea-Espresso shots can be extracted within 30 seconds at high temperature and pressure. The resulting tea shot retains the original rounded tea qualities and flavor. It is perfect for lattes, iced tea, flavored milk tea, fruit tea and many other tea products.

### Caffè Espresso

GEE Pro has been specially designed to raise pressure rapidly during extraction. This is different from the hard pressure curve of traditional machines. The result is better performance and softer extraction.

### Optional accessory

Custom designed for brewing single-origin coffee.

GEE's Dripping Shower brewing kit can be used with various hand-made coffee filters (V60, M1, etc.).

Material : TRITAN™  
Non-BPA · Non-BPS

● TRITAN™ meets US FDA standards (FCN).
